

# A MAJOR MOVE

## THE URB RELOCATION STORY

### How United Rotary Brush Saved \$1.2 Million Through Strategic Facility Consolidation

#### THE SITUATION

United Rotary Brush faced a major operational challenge. After the leases ended on two facilities, the company needed to relocate and consolidate both operations into a single location in Olathe. The transition required extensive planning, precise coordination, and a strategy that would keep production on track throughout the move. With significant risk on the line, United Rotary Brush sought a trusted partner to guide the entire process from start to finish.

#### THE KMS SOLUTION

- Project oversight to deliver a successful consolidation
- Developed a detailed project plan
- Comprehensive cost tracking
- Consistent meeting facilitation
- Coordinated communication with vendors and internal teams

#### THE RESULTS

- **\$1.2 million saved** with facility consolidation and operational efficiencies
- **\$10,000 invested** in training for new team members
- Streamlined processes

**UNITED**  
ROTARY BRUSH CORPORATION

#### Company Snapshot United Rotary Brush Corporation

- Olathe, Kansas
- Manufacturer of rotary brooms and engineered brushes
- Around 200 employees
- 80+ years of industry experience

**"We could not have made this move without KMS involvement and expertise. In the end, this project became a non-event."**
